**Highway Healthcare** is an organization that specializes in providing general practice and occupational health care. The practice has been around for over 10 years and has extensive experience in several services. We are located at the Martin Luther Kingweg 213a, Wanica.

### ***Our mission***

- We offer accessible and personal GP care, where the client is central.
- We treat our clients with kindness and respect with a feeling for their wishes and expectations.
- We provide healthcare in an effective and efficient manner, in accordance with applicable guidelines and protocols.
- We offer curative care and attach great importance to prevention!

The quality of care and the health of the client are leading in our treatments and advice, whereby client satisfaction is of paramount importance.

### ***Our vision***

- Our practice aspires to be a learning organization in which responsible care, at the highest attainable level, is available during the opening hours of the practice.
- Continuous training and further training of all employees within the practice is important in this respect.
- To achieve this, we want to make use of new technical developments, both in the field of diagnostics and treatment.

## We offer the following services:

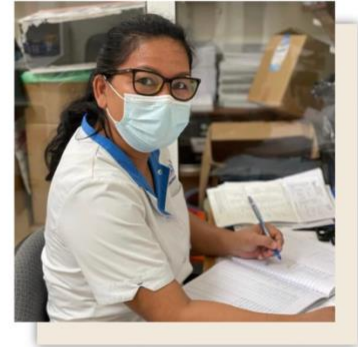

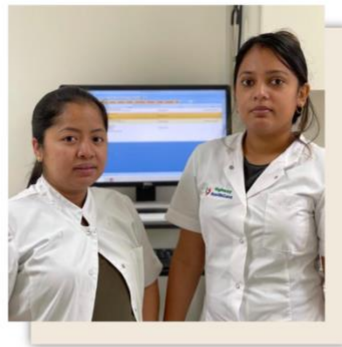

- Physical consultations at the clinic
- Digital consultations: by telephone / WhatsApp / video calling
- Home visits (if necessary)
- Minor surgical procedures such as wound stitches etc.
- Laboratory facilities for mainly blood tests at the clinic and at home (if necessary)
- Medical examinations
- Drugs and alcohol testing

## Team

Our team consists of 2 doctors, 3 nurses, 1 administrative assistant, 1 laboratory assistant.

Dr. Deepak Gangadin is our managing director and the chief physician. He has more than 3 years of emergency care experience and has been a general practitioner for more than 10 years. He is the chairman of the association of doctors in Suriname - section of general practitioners, chairman of the covid-19 working group of the general practitioners and board member of social cultural sports association BARKA. Our nurses and assistants are friendly, easily accessible and well trained.

## Target audience

- The area around the practice
- Small and large companies
- Foreign companies

## Future

In the future, we want to expand our services with possibly more specializations and thus optimize the services so that a wider audience can be served.
